Pre-IOWave 2025 Workshops on Standard Operating Procedures for National Tsunami Warning Centres and Disaster Management Organisations

Summary

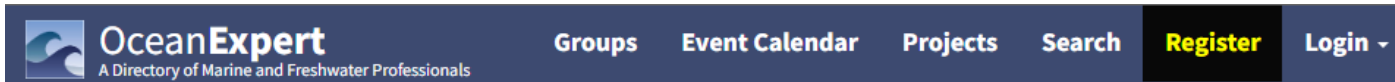

The IOC Intergovernmental Coordination Group for the Indian Ocean Tsunami Warning and Mitigation System (ICG/IOTWMS) at its 14th session (Banten, Indonesia, 17–19 November 2024, decided to organize an Indian Ocean Wave Exercise in 2025 (IOWave25) and established a Task Team to plan and conduct the exercise. At the most recent intersessional meeting and after consultation with key stakeholders, the Task Team IOWave25 decided to conduct IOWave25 with four different scenarios on 25 September, 15 October, 25 October and 5 November 2025. The four scenarios will allow individual Member States to decide the type and number of exercise scenarios to participate in.

This hybrid three-day pre-IOWave SOP workshops will be conducted through an online regional session on day 1, a national coordination session in each of the country (either in-person or online) on day 2, and an online regional sharing session on day 3. The workshop will provide an opportunity to share the latest information regarding the development and status of SOPs along the tsunami warning chain at all levels in the Member States, provide conceptual input, discuss, and exchange experiences, and identify areas where improvements are needed, and to discuss on the preparation for the IOWave25 Exercises. The upcoming Exercise IOWave25 this year will subsequently provide an excellent opportunity to test the national tsunami warning chains and their underpinning SOPs.

Please register
at: <https://oceanexpert.org/register>

This helps the Secretariat and fellow workshop participants know your details—such as your institution, position, and email address.

The registration process only takes a few minutes to complete.

Presenters: Sharing Your Presentation

You may share your presentation by clicking the **'Share Screen'** button (usually green).

Alternatively, the Secretariat can share your presentation on your behalf.

In either case, please email your presentation to iotwms@unesco.org so it can also be posted on the event website.

Please Note

This meeting is being recorded.

You are encouraged to submit any questions or requests for clarification using the **Q&A** feature. A speaker or expert will respond to your query as soon as possible.

If time allows, selected questions from the chat may also be addressed during the plenary discussion.

Session-2 Breakout Instructions

During Session-2 today, a breakout room will be used:

- **NTWC participants** (National Tsunami Warning Centres) are kindly requested to join the breakout room.
- **DMO representatives, media, and all other participants** should remain in the main session.

After the NTWC breakout concludes, all participants will reconvene in the **Plenary** for a briefing on the **Day-2 National Coordination Meeting**.
