National Tsunami Warning Chain Status Timor–Leste

Timor-Leste

05/08/2025

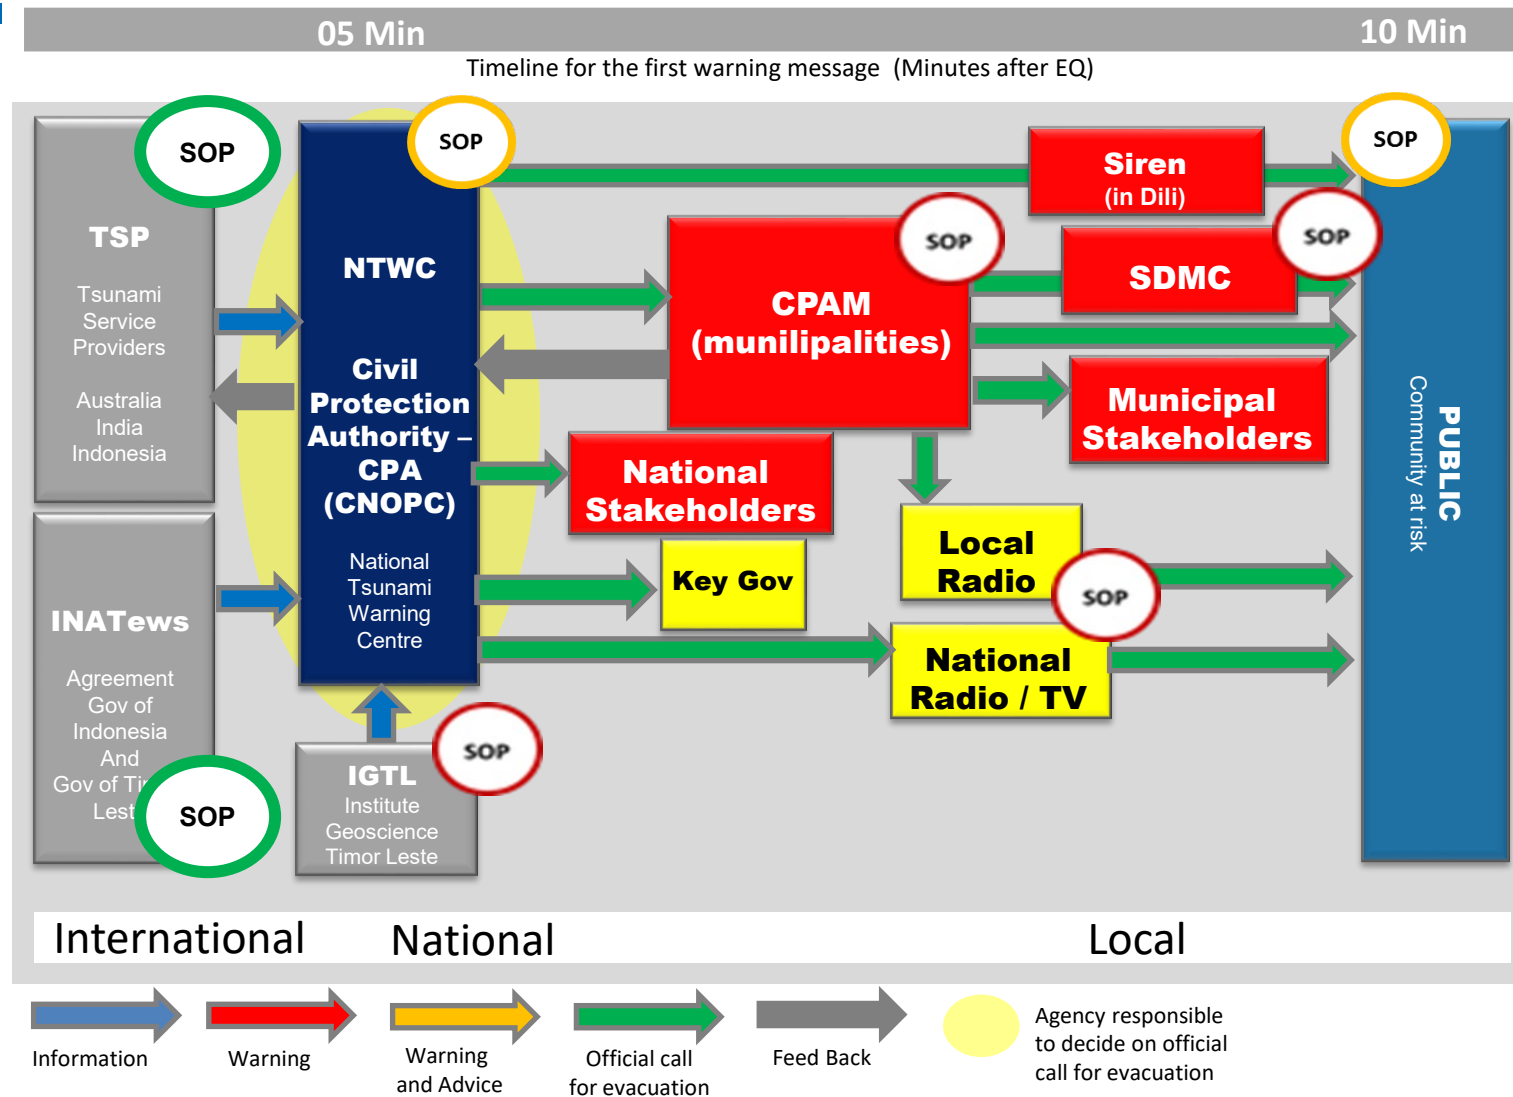

Standard Operating Procedure Status Timor–Leste

Timor-Leste
05/08/2025

Future tsunami warning chain – Timor Leste (Incl. IGTL)

Issues for follow-up and future work

1. **Updating outdated SOPs for tsunami warnings (Ongoing)**
2. **Improving coordination between NTWC and local DMOs**
3. **Training internal CPA and local communities on evacuation procedures**
4. **Coordination between national TV and the Telecommunication Operator for the dissemination of warning information. (ongoing)**
5. **Testing communication channels during drills**
6. **Securing funding for siren maintenance or new equipment**

Modify as appropriate.

- **Scenarios:** 1) Sunda Trench (Thursday 25 September 2025); 2) Makran Trench (Wednesday 15 October 2025); 3) Fani Maore Volcano (Saturday 25 October 2025); 4) Sumatra Trench (Wednesday 5 November 2025)
- **Exercise types:** Full-scale exercise, Functional exercise, Tabletop exercise, Drill, Orientation exercise
- **Key players:** NTWC, NDMO, P/LDMO, emergency response agencies, media, communities, etc.
- **Evacuation:** Names of communities evacuating and approximate number of people (if known)

World Tsunami Awareness Day 2025 Plans

Modify as appropriate.

1. Community Evacuation Exercises In Kampung Marinir, Bebonuk, Dili.
2. School Drills & Education
